Your City Directory is Standardized

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauges wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals made possible by association contracts are the greatest factor in the refinement of a service or a product. They help to bring the product into a high degree of perfection. This is the office which helped to service the Association of North American Directory Publishers.

Every Store should appear in the Directory and the Directory should be in Every Store.

Besides its use to the stockbroker, it is a convenience the customer looks for. The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and the interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by this Association of North American Directory Publishers.

Every Store should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for. The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fortified. The interchange of ideas and information is the side possible by helping contacts and is the greatest factor in the refining of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

Every Store should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for. The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Your City Directory is Standardized

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham; railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Stockton, and so on, ad infinitum.

Your City Directory is Standardized

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Your City Directory is Standardized
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standardized whether made in Brockton or Stockton, and so on, ad infinitum.

Fruitvale 7500

Every Store should appear in the Directory and the Directory should be in Every Store.

Besides its use to the stockkeeper, it is a convenience the customer looks for. The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.
